New Users - Register and add Student(s)

Step 1 - Register as a Parent
Note the option to create an eWallet account. There is no obligation to use this account.

Step 2 - Register a Student

You will then be prompted to add further students, if this is required.

When all students required are setup, select "Place an Order" to go to the main console page of the system. You may not want to proceed to place an order however until you have deposited funds to your eWallet which only attracts a 20c fee when you "submit" an order. If you choose to pay by PayPal or credit card, further fees apply.
