By Jack and Sophie

Over the past term Year 6 have been writing persuasive speeches. All the speeches were amazing but the two people that made it to the finals were Emily and Audrey. The competition was held at St Ignatius, Toowong and included participants from St Joseph's, Holy Family and St Peter Chanel with two participants from each school. The speeches were very impressive and congratulations to Emily for her third place. We are very proud of the effort that all the students put into their speeches.

The auditions for the talent show have been held this week. We are amazed at the talent we have here at St Joseph's. We've had a wide range of acts from dancing to gymnastics and from singing to comedy. It was a great privilege to see all of the acts and judge the auditions

Last week in Year 6 Science we experimented with Physical and Chemical Changes in our unit States of Matter. One of our experiments was turning cream into butter. Surprisingly it was delicious. Another experiment was chocolate and boiling water looking at what happens where you combine vinegar with Bi-carbonate soda.
